Opener Question:

When someone mentions China, what is the first thing that comes to mind?

1. “When you face a problem, do not face it in your own strength and resources.” Why are we so often slow to go to God to solve our problems?
2. “When we include God it not only changes our perspective, it will also change the circumstances.” What did Joel mean by that. Do you have any examples where that has been the case?
3. Joel shared several stories of relatively uneducated Chinese Christians that God used to do extraordinary things. Which of those stories inspire you and why?
4. How have you seen the truth of “little is much when God is in it”? What are some of the “little things” that we have that God might use?
5. Jesus wants what you have and who you are. Do you sense God calling you to take a next step? What do you think that next step is?
